The Good Life by TCP

The Good Life LED Filament Lamps

Product Specifications

TCP Good Life Filament Lamps provide a superior warm dimming experience when compared to other dimmable LED lamps. As the lamps dim, the color temperature transitions from a soft white light color to a warm amber glow, mimicking the dimming effect of incandescent and halogen bulbs. TCP Good Life Filament Lamps can dramatically influence the atmosphere of any environment by delivering an effortless color temperature transition while maintaining their efficiency.

Reasons to choose The Good Life LED Filament Lamps by TCP

- Lamps come in a variety of shapes, wattages, and in two different light spectrums: 2700K to 1800K and 3200K to 1800K
